MLK Chicago Attack - Picture Prompt

Instruction: Look at the picture below. Take some time looking at the postures of those in the image. Try to understand what they are doing and why they are doing it.

Think about Dr. King's reaction to the Chicago attack ([source](#)):

I've been in many demonstrations all across the South, but I can say that I had never seen, even in Mississippi, mobs as hostile and as hate-filled as in Chicago.

How do you view the South vs. the North during this time period? Why do you think Dr. King decided to stay even after he was attacked?
